## FAVORITE THINGS

 **Ojo Rojo**  
Gargamel

This 6-inch toy by Martin Ontiveros has a ton of detail, an impressive paint job, and an awesome design. It's a future designer vinyl classic.

 **Whiz Limited**  
Secret Base

Secret Base produced this excellent, multi-layered figure for Whiz, a Tokyo clothing line. Its innards light up when shaken, making this the next level of kaiju.

 **Baby Treasons**  
Crazy Label

Pink, blue, brown, and white mini versions of Bubi Au Yeung's signature figure come in their own sacks, and take the rough edge off the designer toy world.
